Ilia Shumailov

Candidate for graduate student representative to the Council of the School of Technology

I am a first year PhD student in Computer Science working on defence mechanisms against surveillance. Over the past 5 years I have been a part of 4 different universities, lived in 4 countries and worked at a few global companies. I saw how decisions made took a wrong turn and affected a lot of people. As a student representative I want to make sure that every voice is heard and nobody gets left behind. My experience of interaction with administration, understanding of the organisation and negotiation skills make me a great candidate to represent the student community.

I am always available for discussion at is410@cam.ac.uk or at GE14 at the Department of Computer Science and Technology.
