

The following pages show the timetable for remote submission of assessment via Moodle.

If you have questions about:

- the assessment type, contact your department in the first instance.
- assessment, then consult the FAQs available online [here](#), or contact your Tutor.

If you have concerns about taking the assessment due to illness, caring responsibilities or lack of facilities, then contact your Tutor without delay.

Note on the timetable

All times shown are GMT+1

This timetable will only show assessments which are being managed centrally. This information is also available to view in CamSIS self-service.

All other assessments are being run by their department and each department is responsible for informing students of that timetable. This information will not be available to view in CamSIS self-service.

Many subjects are offering a window of 24 hours to complete the assessment. This is displayed on the following pages as two rows; with day one showing as 12:00 – 23:59 and day two displaying on the second row as 0.00 – 12.00.

The purpose of a 24-hour window is to allow students across all time zones to complete the assessment at a convenient time, irrespective of their physical location. It is **NOT** expected that you will spend 24 hours on these assessments.

Whether the submission window is 5 or 24 hours, it is expected that you will spend the same amount of time as a standard exam on your assessment. For example, if the examination would usually last 3 hours, then that is the time you are expected to spend on the assessment. If you are a student with approved examination adjustments, then you should take the extended time normally awarded.

Borrowed papers

If your Tripos borrows papers from another subject, you should confirm with your department whether you should be undertaking that 'borrowed' assessment or not. Whilst every effort has been made to include information in this document where borrowed assessments are still to be taken, you should still ask for confirmation from your department and follow their guidance.

Moodle

Prior to the assessment, your department will email you a link to the assessments in Moodle.

You will be able to access the course from 9am (GMT) 3 days before your assessment is scheduled to begin. At this point, you will be able to see the question paper as a pdf, however this will be greyed out and not accessible until the assessment begins.

You are encouraged to log in to the assessment prior to the start time to ensure that you can access the course and see the question paper. If you have any problems accessing the course, then you must email moodlehelp@uis.cam.ac.uk

This version replaces v6 at 4 June 2020.
