

Student Representatives

Available roles, 2024-25 Academic Year

Cambridge Students' Union will elect to both **Council of the School** and **Academic Subject Representative** roles, in elections to be held across October 2024. For more information about elections and being a subject representative, visit www.cambridgesu.co.uk/aboutus/yourreps/academicreps/

Timeline

- Nominations open 7 Oct – 15 Oct
- Voting 21 – 24 Oct
- Results published 25 Oct
- Bye-election for unfilled roles as needed.

Council of the Schools representatives

The University will seek to elect one undergraduate and one postgraduate to each of the following School-level roles:

- Council of the School of Arts and Humanities
- Council of the School of Biological Sciences
- Council of the School of Humanities and Social Sciences
- Council of the School of Physical Sciences
- Council of the School of Technology

Each of the above roles is open to students registered for courses within that School. Councils are generally concerned with the wider strategic goals of the Departments within their areas, so these representatives should anticipate providing wide-ranging feedback on matters of resourcing, estates, new courses, and regulations.

Note that the School of Clinical Medicine does not elect separate representatives; the Faculty Board representatives (in the table below, those listed for “medicine”) serve in this role.

Academic Subject Representatives

The following subject-specific roles are available, which will serve as student representation on the Faculty Boards indicated. These representatives should anticipate providing more detailed, course-specific advice to the relevant Board; in addition, representatives may be asked to contribute to teaching or other Committees managing the educational experience. Further information is available from the relevant Faculty.
