

I'm Filomena Russo, a PhD student in Architecture. I am in my first year of study, having completed my MPhil in Environmental Design in Architecture at Cambridge in 2005. I am a mature student and a qualified architect having worked in private practice in the UK for more than 20 years.

I would be honoured to represent students on the Council of the School of Arts and Humanities. I believe that I can make a positive contribution to help graduates studying at the School, particularly given my past academic experience and architectural career.

The University of Cambridge is an amazing institution, and we are all constituent parts of the University. We are all immersed in our studies, but I wish to help students maximise their potential and reach their academic goals. I will listen, learn your concerns, understand what issues need to be addressed and have an active role representing you in the Council.

Participation in the Council's deliberations is important, where the student voice is vital to help guide all our futures. I offer my commitment to you; I will represent all students.
