## Assessments via remote submission using Moodle

v1 published 3 August 2020

The following pages show the timetable for remote submission of assessment via Moodle.

If you have questions about:

- the mode of assessment, contact your department in the first instance.
- assessment, then consult the FAQs available online [here](#), or contact your Tutor.

If you have concerns about taking the assessment due to illness, caring responsibilities or lack of facilities, then contact your Tutor without delay.

### Notes on the timetable

All times shown are GMT+1. This information is also available to view in CamSIS self-service.

Many subjects are offering a window of 24 hours to complete the assessment. This is displayed on the following pages as two rows; with day one showing as 12:00 – 23:59 and day two displaying on the second row as 0.00 – 12.00.

The purpose of a 24-hour window is to allow students across all time zones to complete the assessment at a convenient time, irrespective of their physical location. It is **NOT** expected that you will spend 24 hours on these assessments.

Whether the submission window is 5 or 24 hours, it is expected that you will spend the same amount of time as a standard exam on your assessment. For example, if the examination would usually last 3 hours, then that is the time you are expected to spend on the assessment. If you are a student with approved examination adjustments, then you should take the extended time normally awarded.

Assessments for **Mathematical Tripos, Part II (MAT2)** are scheduled early, 25 – 28 August, rather than in September.

Assessments for **Computer Sciences Tripos, Part II (CST2)** and **Economics Tripos, Part IIB (ECT3)** are being run locally within the department and the timetable is published here for reference only. The Moodle information below is not relevant to those courses and students should liaise directly with the department for further information.

### Moodle

Prior to the assessment, your department will email you a link to the assessments in Moodle.

You will be able to access the course from 9am (GMT) 3 days before your assessment is scheduled to begin. At this point, you will be able to see the question paper as a pdf, however this will be greyed out and not accessible until the assessment begins.

You are encouraged to log in to the assessment prior to the start time to ensure that you can access the course and see the question paper. If you have any problems accessing the course, then you must email [moodlehelp@uis.cam.ac.uk](mailto:moodlehelp@uis.cam.ac.uk)
