

Dear Students,

I'm Adi, a first year Economist at Magdalene College, and I would love to represent you on the Council of the School of Humanities and Social Sciences. My role on the Head of School team in high school has given me the experience and a real passion for representing the student voice and implementing changes that improve the student experience. By being elected, I promise to regularly communicate with the relevant faculty reps to make sure the agenda and discussions involved in the Council meetings reflect the current problems we are facing. This could include discussions on: the quality of teaching, workload, quality of course content, etc. And I would love to have these discussions with anyone interested and to fight for change in the council meetings.

Kind Regards,
Aditya Iyer (Adi)
