

Anna Koelle

For Undergraduate Representative of the Council of the School of Humanities and Social Sciences

About me

I am a second year BA student in Economics at Hughes Hall from Duesseldorf, Germany.

As the School consists of eight Faculties I am aware that we are a very broad and diverse student body. I believe that working together with the Student Faculty Representatives is the key to bringing together the different points of view. Hence such diversity becomes an opportunity for us as students to improve our situation together.

Before starting with university I did a traineeship at Deutsche Bank. During that time I represented my fellow trainees on several occasions.

Currently, I am the MCR Academic Officer at Hughes Hall. Consequently, I know of the importance of student representation in academic committees in order to provide a contrasting point of view to that from the academic side.

Hence, I believe that this provides me with the skills as well as the experience to represent us as the student body at the Council discussions. Therefore, I would be thrilled to be your Undergraduate Student Representative.

My goals

As your Student Representative I will be granted the opportunity to influence the deliberations of the School and the decision it makes. Hence I will

1. aim to improve our situation with regard to educational policy,
2. raise queries and concerns about the matters under discussion and their potential impact on us as students,
3. bring up any other issues that concern us as a student body.

If you have any further questions please contact me: amk98@cam.ac.uk.
