

Fahmida Yasmin

I'm Fahmida, an undergraduate reading Land Economy at Newnham. I am running for Student rep to provide a strong voice at meetings to ensure the best possible student experience. In addition, I will put pressure on the Council of the School to reflect our concerns about the quality of education and to bring positive change to the strategic plan.

Previously, I have been highly pro-active being a learning mentor whilst taking part in debating workshops – which require excellent communication, listening and organisational skills. These skills will be beneficial to this role and I hope I have demonstrated these qualities.

Should I be elected, I intend to work closely with everyone, addressing your concerns and keeping you informed on the progress we have made.
