

To the reader,

I was elected to this post in the Summer to replace the previous representative who stood down, having finished his degree. I have at time of writing attended only one council meeting, so I have reproduced my previous manifesto for you, below.

In terms of my suitedness to the role, I attach a relevant CV. I hope you feel you can endorse me to serve on this committee in order to provide the experienced and informative contributions the School is seeking. I hope it also goes without saying that I will defend the rights of the student body to the best of my ability. I have become rather interested in education and education/science policy, and so I would be enormously grateful if you would elect me to the Council of the School of Physical Sciences.

Faithfully,

Tom Sayer

CV:
