

Hi all! I'm Jacob, a 2nd year PhD in the AI group in the Department of Computer Science and Technology. As MCR President at Magdalene College, I have experience collating and expressing the views of many graduates at both the college level, through the college governing body, and at the university level through the graduate union council. In the role of graduate representative to the Council of the School of Technology, I will strive to clearly incorporate graduate views into the school's governance, resource allocation, and fundraising priorities. I fundamentally believe the university will be made stronger through strong graduate welfare, representation, and research for all.
